According to experts, we should eat only 2 times a day, and there should be a gap of at least 8 hours between each meal. We can eat food anytime but we have to finish that food within 40 minutes. Whatever food we eat, our body gets Carbohydrates, Proteins, Fat, Minerals and Vitamins from it. If Input is more and Output or Fat Burn is less, then the chances of weight gain are high. Keeping all aspects in front, Lifegain has made a wonderful and very easy to use product to the service of all Indians to eliminate both obesity and disease, namely "Slimming Belt".

Some people are worried about weight gain, while some people are worried about weight loss, both of them are related to the body. When a child is born, its weight is maximum 3 to 5 kg. The problem of obesity will now be seen only at a young age, Because today's children are engaged in video games at home instead of playing outside, due to which their metabolism starts deteriorating. Older people also used to play more field games, then everyone was healthy, now people work whole day sitting in the office, changes in their body is seen soon, some people are fat from birth, the reason for that is People are victims of heredity.

**Slimming Belt :** In front of all the unsuccessful efforts you have made till date or to get rid of the world's most important and silent disease from the root, this new invention of Lifegain Medical was given to you as a slimming belt. 48 Aarush stones have been used to make the slimming belt. As we all know, Aarush is a ceramic made from 9 different natural elements. If it is heated at 40°C temperature, it gives 98.7% FIR. We have seen many reasons for man's weight gain and its adverse consequences. After weight gain, the front part of the stomach and on both the sides, which we call Belly fat, it spreads. And when our waist becomes a big waist, we don't even know. In today's age, slim fit is the style. No one wants to haphazardly increase their body.

In the modern age, man is so busy in other works that he does not get time for sports / outdoor games, swimming, exercise, workout. According to scientific survey, a person who has been slim in his life has to face the least number of diseases, and his age is also longer than the people who are obese.
